

## TREE TRIBUTE

This program is designed to allow organizations or individuals an opportunity to commemorate an event through the perpetual growth of a tree. Modeled after successful programs from across the country, the City of Nolanville TREE TRIBUTE program can fit most any need.

### **Tree Planted in Someone's Name**

A tree planted in someone's memory is a living tribute that benefits present and future generations, and is perhaps the most fitting memorial gift of all.

### **Plant a Tree for a Special Event**

A unique and green gift for events such as birthdays, holidays, graduations, weddings, new births, anniversaries, special thank you or any special occasion.

Trees clean our air, absorbing harmful carbon dioxide and producing oxygen. They help to clean water for the millions of Americans who depend on a forest every time they turn on their faucets. Healthy forests sustain critical habitat needed for wildlife, and enhance our own outdoor pursuits. Besides all these practical benefits, trees add value and beauty to their surroundings

### **TREE PLANTING PROCESS**

The City of Nolanville has numerous locations throughout the city available for planting trees. To ensure a healthy and adequate survival for a tree, the following guidelines are set forth:

- Once the selection of tree species is determined, the City of Nolanville will order the tree from a local nursery.
- The City of Nolanville will plant the tree.
- A specific site may be requested and the staff will make every attempt to honor the request. In the event no site is specified, or the donor's request cannot be accommodated, the staff will determine the planting site.
- The City will assume the maintenance of the tree.
- The tree will be planted in Nolanville, on public land, including City owned facilities.

### **ACKNOWLEDGMENT**

The recipient and location are remembered on a standard plaque, designed and fabricated by the City. The recipient/ family will receive a certificate and a card acknowledging the gift. The donors will be contacted prior to the planting of the tree.

### **TREE SELECTION**

Depending on the location, various species of trees are available. Texas Ash, Bur Oak, Chinquapin Oak, Lacey Oak, Mexican White Oak, Live Oak, Texas Red Oak, Texas Mountain Laurel, Crape Myrtle, Cedar Elm & Pecan
